

**The Revolutionary RUSH™ Foot**

***The future  
has arrived!***

**CARBON  
FIBER**

**RUSH™**

The future is the RUSH foot by Ability Dynamics! RUSH is made from Flexeon, an incredibly durable composite fiber material that also provides extraordinary flexibility.

Flexeon is durable, flexible and provides dynamic feedback. The high-energy return of this remarkable foot enables amputees to easily traverse even the most aggressive terrain. Best of all, it's virtually indestructible allowing the wearer to engage in all their desired activities with total piece of mind.

At Ability Dynamics, we've taken advantage of the latest in advanced composite material technology to create the revolutionary RUSH foot.

The RUSH foot finally provides prosthetists and amputees with a real solution.
