softSHELL™

Every ToeOFF® and BlueRocker™ should have a soft interface between the orthosis and the tibial crest.

We now offer a Beige and a Brown SoftSHELL that changes the overall color of the brace.

It combines the padding system of SoftKIT™ with a lycra textile front to form a sleeve that slides over the anterior plate. It includes matching cover for the lower strut. Two-in-one, a lycra front in choice of two, Beige and Brown, colors and SoftKIT interface between the orthosis and the tibia.

Item No. 28393 Beige
Item No. 28394 Brown
XSmall - XLarge, bilateral.

Also - we now offer a Beige SoftKIT to match the ToeOFF Fantasy Ivory!
