

# LIMB LOSS | Resource GUIDE

A practical guide for preparing for, adapting to, and living with limb loss.

Provide sought-after information and resources to your new and existing prosthetics patients.

Help your patients become informed healthcare consumers!

- Healthcare team selection.
- Postoperative care, rehabilitation, and ADLs.
- Prosthetic devices, fitting, and adjustments.
- Pain management and preventative care.
- Financial considerations and working with insurance companies.
- Adaptations for home and work, emotional issues, and peer support.
- More!

## ATTENTION PROSTHETISTS!

**Customization Option:** We can place your company's logo and contact information on the back cover, so your patients know that this information is coming from your practice.
