

For 25 years Anatomical Concepts has held itself to a simple philosophy
It's about the PATIENTS!

Our elbow product line consists of the EMO™, QUAD™ and E-ROM™ Orthoses. The EMO™, or Elbow Management Orthosis, provides immobilization for musculoskeletal conditions and offers static, progressive stretching. The QUAD™ and E-ROM™ Orthoses are multifunctional jointed systems that also provide immobilization for musculoskeletal conditions and feature gradual, ratchet-style stretching.

EMO™ Orthosis
Elbow Management Orthosis
