

THE QUEST FOR INNOVATION IS A CONTINUOUS JOURNEY

Family of Joints

Hand Tools

FADT™ Press

Shearban®

Who would have imagined that a 0.018-inch-thin product could be so easy to use and yet have such a profound impact on your practice and patients?

We did. At Tamarack Habilitation Technologies, we looked for a better way to manage friction and developed it in Shearban®. Our interface material is proving to be faster and more effective than remolding or padding. It's just one example of how you and your patients benefit from our never-ending quest for innovative solutions.

To find out how you can make a difference for your patients with long-lasting Tamarack products and tools, call Becker Orthopedic toll free at 800.521.2192 or 248.588.7480 from outside the U.S., or visit their Web site at beckerorthopedic.com.
