

BOA TECHNOLOGY

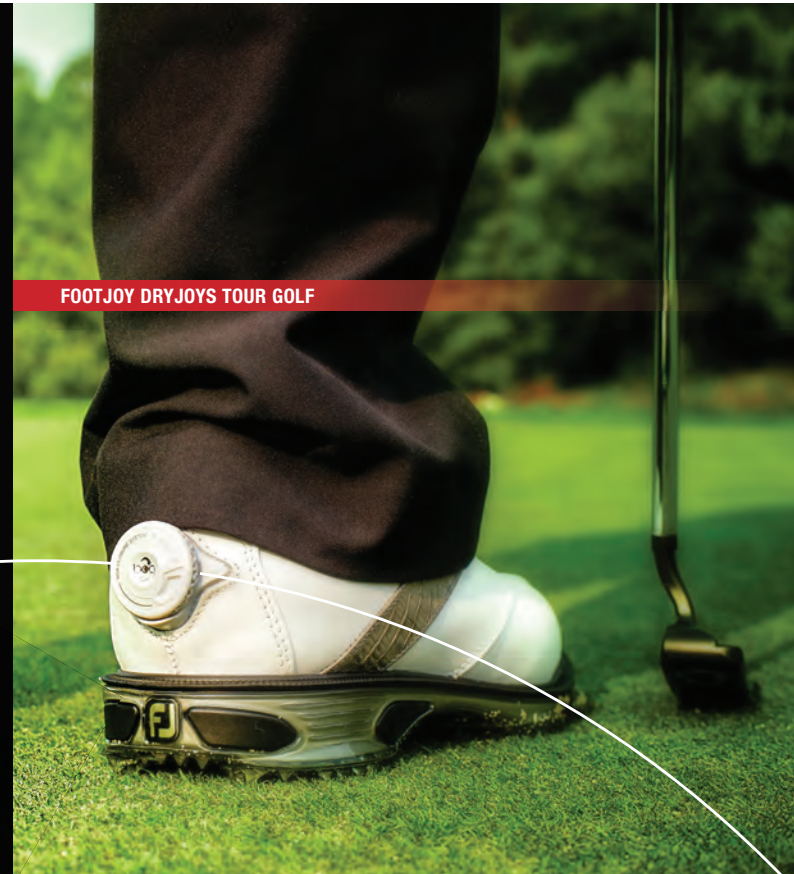

Over a decade ago, Boa launched our premium closure system on snowboard boot brands K2 and Vans. Since then, our portfolio of brands and products has grown to include sporting goods, pro-cycling shoes, golf shoes, utility boots, medical bracing and more. Over 90 brands around the globe partner with Boa for the fit, comfort, and ease of use our technology provides.

DIAL IN A WHOLE NEW LEVEL OF FIT

Drawing from over 10 years of experience creating closure solutions for high performance sporting good brands, Boa has applied its technology to medical bracing products from Exos Medical, Ossur, Futuro, Ace and DeRoyal. Our newest partnerships with **Hanger** and **Revolimb** deliver the same premium closure solutions to orthotics and prosthetics. The proven fit, convenience and single-handed micro adjustment of Boa Technology consistently deliver outstanding benefits to both patients and providers.
