

STRIDE CONTROL[®]

Take Control...

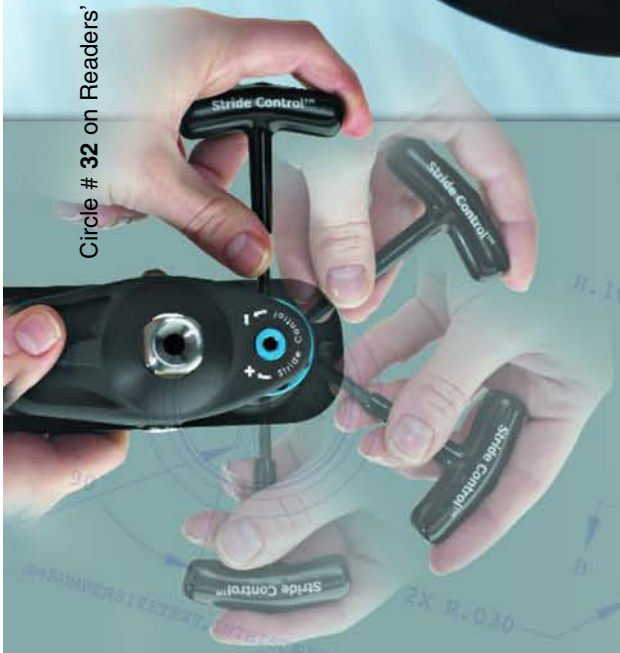

Every person's gait pattern is as unique as their fingerprint.

No disassembly required. College Park's Adjustable Stride Control allows fast and easy adjustments to gait match without Foot Shell removal. Stride Control is available on TruPer[®], Venture[™] and Tribute[™] Feet.

Quickly adjust the feel to meet the varied demands of each individual by changing resistance to motion, optimizing gait.

Circle # 32 on Readers' Service Card

College Park gait matches each foot to individual specifications. With a simple adjustment of the Stride Control, you can fine-tune the feel of the foot, increasing the comfort level and function, without the need to change bumpers.
