

LOCK IT UP!

Three great locks

Air-Lock

- Suction allows for less traction on the limb for increased comfort and decreased liner wear
- Expulsion valve or suspension sleeve are not needed to maintain suction in most cases
- Water-resistant

CD103 | Air-Lock AK BK

Patent No. 6334876

Easy-Off Lock

- Easy donning and doffing with lever release
- Self-lubricating materials reduce wear
- Can be used with elevated vacuum
- Water-resistant

CD117 | Easy-Off Lock AK BK

Patent No. 6334876. Other patents pending.

Proximal Lock

- ZERO CLEARANCE lock
- Controls rotation
- Larger attachment distributes more tension; flexible attachment rolls on easier
- Use with your choice of distal adapters

CD116 | Proximal Lock AK BK AE BE PED

Patent No. 6666894, 7431738, 7077868.
Other patents pending.
