

Two **New** Innovations by Cybertech

The Protégé LSO and Passport LSO

Protégé LSO

Code Approved L0637

The **All NEW Cybertech Protégé LSO** is a multifaceted modular spinal support that takes you from pre-op, initial post-op to a rehab progression stepdown system.

It allows for progressive rehab adaptability with removable/replaceable lateral, posterior and anterior panels for a complete total progressive rehabilitation support system.

The modularity of the system provides 4 levels of support.

U.S. Patent No. RE35,940

Passport LSO

Code Approved L0631

The **NEW Cybertech Passport LSO** allows for a progression of rehab adaptability with removable/replaceable anterior and posterior panels.

- Molded posterior panel contoured to the natural shape of the thoracal lumbar anatomy.
- A unique low profile removable anterior panel, pocketed into the belt for greater patient comfort and compliance.
- Hand straps for patients with arthritic hand involvement.

Removable Low-Profile
Pocketed Anterior Panel
