### INTRODUCING **DR. COMFORT LABORATORIES**

A FULL SERVICE CUSTOM INSERT LABORATORY WITH STATE  
OF THE ART 3D SCANNING AND MANUFACTURING

**Dr. Comfort Custom Inserts** are manufactured by using state of the art CAD/CAM software and 3D scanning technology. Our 3D scanning algorithms smooth imperfections and inaccuracies from both foam and plaster cast techniques. We use custom designed CNC routers that manufacture three identical pairs of inserts. Precision sculpting up to one thousandth of an inch assures accuracy every time. Dr. Comfort maintains all 3D scan data for archival storage. All orders are fully reproducible for your convenience. *Dr. Comfort Custom Made Diabetic Inserts* meet K0629 specifications.

## *The Finest Quality Diabetic Inserts* **Period!**

*Our*  
**Nobody Beats *Our* Comfort!**

One in four Americans will develop foot complications due to their diabetes. Properly fitted shoes are essential for reducing these risks. Dr. Comfort shoes are the highest quality leather shoes, precision lasted with extra depth for extra comfort to better cushion your feet. Medicare or private insurance carriers may cover the costs of Dr. Comfort Footwear. Call now to find out how your patients could be wearing the finest quality diabetic footwear or just call us for our FREE Catalog.
