Designed for K2 level amputees, the Navigator is the perfect foot for day to day activity. Around the home, office or walking to shops and meeting friends, the “natural feel” of the Navigator encourages the wearer to expand their horizons as they explore their world.

- ▷ Realistic ankle joint position for a more natural look and feel.
- ▷ Controlled ankle motion enhanced for natural and symmetrical gait.
- ▷ Improved rollover characteristic given by the ergonomically shaped resilient keel.
- ▷ Lower build height to maximize individual assembly options.
- ▷ Limited three year warranty.
