

ENDOLITE

Endolite is dedicated to providing innovative products that offer excellent energy return and enhance the amputees gait pattern. Our latest innovations:

- Smart IP** Features patient self-programming to accommodate changes in foot wear and activities. Ensures a smooth gait and low energy consumption
- TT Pro** Compresses and rotates comfortably to absorb impact and enhance energy return at toe-off
- BRIO** Allows instant heel height changes while maintaining optimal alignment
- Mercury HA** Sleek, robust frame and hydraulic cylinder for active amputees up to 300 lbs.
