Origin Off the Shelf

Standard sizes for Evolution's Origin Liners. Available in Regular and Long sizes. There are three types of Origin Off the Shelf Liners: Origin, Origin X, and Origin XV.

Custom Origin

The Custom Origin is excellent for uniquely shaped limbs and/or sensitive limbs; made from a positive cast, negative cast, or AOP files from INSIGNIA by a certified prosthetist.

Evolution UNIFORM

The Evolution UNIFORM is a cost effective solution for patients with limited or moderate ambulation or new amputees where comfort is the primary requirement. The seamless fabric cover provides the necessary longitudinal support, radial stretch, and makes donning and doffing an easier process.

The UNIFORM is designed especially for unilateral and bilateral transtibial patients and is available in both locking and cushion.

Made with Origin Silk Silicone

Made with the Origin line of medical grade silicone that is naturally compatible with human tissue and resistant to fluids and bacteria. Origin liners never reduce in strength or thickness and are intended for patients of all lifestyles and activity levels.

Choose the best Evolution Liner for your patient. **Origin OTS** for a variety of regular sizes, **Custom Origin** for uniquely shaped limbs, or the **UNIFORM** for comfort.
