it's time to **E**volve...

Distributor Free!

Now you can buy direct from
Evolution Liners.

And to celebrate....
all orders in April will be **25% off***

Evolution custom liners can be made from a negative cast, positive cast, or AOP file. Standard liners are made in 3 business days and designed by a certified prosthetist. Different thickness and designs are available on request. Standard liners have a distal thickness of 13mm, wall thickness of 6mm and tapers to 3mm at the patella level. Low durometer liners are available for customers who are familiar with custom urethane liners. Evolution custom liners are compatible with standard and high vacuum systems. Evolution custom liners are made from a unique medical grade silicone that keeps the liner fresh and odor free. Liners are available in cushion and pin configurations.

Get the comfort you want with the
durability you need.

Send your casts to:

40 West Illiana Street
Orlando FL 32806

Or E-mail your AOP to:
