

# BUILT ON SCIENCE

*not hype*

## VELOCITY PLATES

### Velocity Alignment Plates

A grid of M6 x 1.00 holes allows for easy movement of any 4 bolt pattern connector to achieve the most optimal alignment for your check socket. Then swap it out for one of our mounting plates for your definitive and the alignment plate is ready for your next check socket.

### Velocity Mounting Plates

Velocity mounting plates are available in standard, heavy duty, and pediatric sizes. The heavy duty mounting plate is also available for our valve kits. All plates utilize the standard 4 bolt pattern for mounting.

## The **BEST** choice for Vacuum Socket Systems

EVOLUTION *Silk*

Designed by a certified prosthetist, Evolution Silk custom liners fit the exact needs of each user. Silk liners are made from a unique medical grade silicone developed specifically for the orthopedic industry.
