CUSTOM SILICONE LINERS

IN 3 DAYS*

Designed by a certified prosthetist, Evolution custom liners fit the exact needs of each user. Lower durometer, soft cups, and extra silicone in sensitive areas are some of the options available.

Manufactured from a unique medical grade silicone that keeps the liner fresh and odor free. In addition, Evolution liners are more durable than custom urethane liners.

Liners can be made from a negative cast, positive cast, or AOP file. Cushion or pin versions are available.
