

Evolution Industries' Full Service Central Fabrication Facility

Evolution specializes in lower extremity sockets. All of our definitive sockets are made from a special weave and weight of premium grade carbon fiber that results in a lighter, stronger socket your patients can count on day after day. They are available in a variety of skin tones, carbon fiber black, and further customization is possible with t-shirt designs from Liquid Blue.

LAMINATED, DEFINITIVE BK CARBON FIBER SOCKET WITH BUILT IN VMP-007 AND FITTED WITH THE VEP-001.

ABC Central Fabrication Accredited Facility

Evolution Industries is Now Part of ABC's New Accredited Central Fabrication Facility Program!

Our team at Evolution is proud to be a part of ABC's new accreditation program. Central Fabrication Accreditation is a rigorous process, but one that we welcome as a continual quality improvement mechanism.
