

# Aura™

## LOCKING SEAL

### ***for optimal suspension without a sleeve!***

The new and improved Aura Locking Seal is the ideal solution providing your patients with a secure fit while preserving freedom of movement. Designed with a soft silicone ring, the Aura locks the liner to the socket wall establishing secure suspension for comfort and stability throughout the day.

### ***what is AURA?***

The Aura Locking Seal is an innovative, cost effective solution to meet most of your suspension needs. An excellent choice when using expulsion or vacuum, the lightweight design locks firmly against the liner wall for an intimate, secure fit.

### **For use with transtibial and transfemoral amputees.**

- *Locks liner to the socket wall*
- *Excellent solution for any expulsion or vacuum suspension system*
- *Use with any uncovered liner*
- *No need for sleeves*
- *Customized seal height available*
