

...because everybody's different.

EVOLUTION *Silk*

Designed by a certified prosthetist, Evolution Silk custom liners fit the exact needs of each user. Evolution Silk liners are manufactured from a unique medical grade silicone that keeps the liner fresh and odor free. Cushion and locking designs are available.

Because each Evolution custom liner is fit to your patients anatomy, each patient has their own mold in our library for easy reordering.

Our liners are more durable than custom urethane liners. Liners can be made from a negative cast, positive cast, and AOP files from INSIGNIA and other systems.

EVOLUTION ORIGIN

Originating from our custom Silk liners, we now offer standard sizes in both pin and cushion configurations. Matrix comes standard in the Origin pin liners, and as an option in the Origin cushion liners.

CHAMELEON

New liners especially for kids!

Chameleon liners are sized especially for kids, and are available in 4 colors: electric blue, hot pink, neon green and fluorescent orange.

Features of the Evolution Liners include:

- A silky surface that allows the liner to slide on itself
- Easy to don and doff
- No coatings that crack, peel or wear off
- No covers to tear or run
- Compatible with all high vacuum sockets
- Medical grade silicone
