

#NEWFABTECH PDE & BOUNDERS

Increased active dynamic feedback

Increased durability

Increased flex range

Modular system

Get back to custom and better outcomes for your patients

PDE/TP.V2 SPRINGS. A GREAT IDEA MADE BETTER!

- Increased flex range
- Increased active dynamic feedback
- Increased durability
- Modular system

MODULAR, ADJUSTABLE, DYNAMIC:

Designed as modular, adjustable and easy to use. PDE/TP springs for thermoplastic bracing are a perfect solution for:

- Any patient who would benefit from a custom posterior leaf spring AFO where pain and offloading of weight are not a key factor.
- Patients with moderate muscle weakness who would benefit from Dorsiflexion & Plantarflexion assistance.

COST EFFECTIVE & BALANCED:

Our new Patent Pending spring material for thermoplastic bracing is cost effective and ideally balanced for patients requiring:

- Optimal initial contact foot position
- Excellent mediolateral stability
- Fluency through stance and propulsion in push-off while not over-powering the thermoplastic construction.

PDE/TP FAB

Are you looking for a high quality Central fab to make your PDE/TP Thermoplastics braces? Look no further! Reach out to one of our certified manufacturing partners and see what they can do for you!

PDE/TP CERTIFIED MANUFACTURING PARTNERS

KINEMATIC IMPROVEMENTS
1220 N. Coit Rd suite 101
Plano Texas 75075
888-338-8309

FREEDOM FABRICATION
815B N. Main St
Havana, FL 32333
800-304-FREE

5

Available in 5 categories of stiffness and common 250mm length

NEW UPDATED DORSI ASSIST BOUNDERS

Dorsi Stop Benders
New steel loop for more strength and durability. Great for patients 35lbs and up!

BOUNDERS MODULAR PEDIATRIC ELASTOMERS

Bounders store & return energy, mimicking normal muscle function. Smart and simple modular design, standardized sizes and three levels of performance to choose from add up to an easy to use expandable dynamic system to treat your pediatric and young adult patient base.

NEW PDE HARDWARE, TOOLS & FAB MATERIALS

NEW!

MAXIMUM FLEX AND RESPONSE.

When more flexibility is desired - our new 50&.75mm Soft PDE Springs in 200mm & 250mm Lengths. springs deliver maximum flex . Use standard PDE anchors and parts. **In stock now!**

NEW!

HEAVY DUTY ANCHOR PLATES

High activity client ? Our new heavy-duty stainless steel anchor plates will handle the load.

NEW!

SHIMS & HARDWARE YOUR WAY

Rotational and flexion adjustment shims, mounting hardware - now available individually or as complete kits.

NEW!

PDE TRANSFER TOOL

Broken footplate ? No problem. Transfer time & labor into new braces.

NEW!

CARBON TAPE DEALS

12K Carbon Fiber Tape - 6" x 50M (150ft) carbon rolls (Large carbon roll for fabricaton)
