

The next evolution in composite fiber.

See The Next Evolution For Yourself.

Booth #90:

38th Academy Annual Meeting and Scientific Symposium in
Atlanta, March 21-24, 2012

Technical Workshop Information:

Wednesday, March 21 / Tier II • 1:30-5:30 pm

Workshop 31 / Room 302

High Performance Prosthetic and Orthotic Lamination
using New Synthex™ Composite Fibers

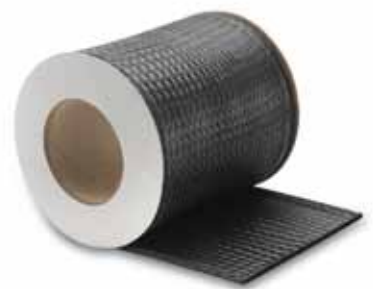

The performance and comfort of plastics. The strength of composites.

10x the impact strength of carbon fiber. Non-toxic. Does not micro fiber when ground. No more itch. Non-conductive. Easy to work with.

Considerable cost savings.
