

Designed by Fab **for Fab**

Profit In Today's Market With Our Proven Tools

Custom O&P Manufacturing Tools. Proven and reliable.

Fabtech Systems equipment is designed to function reliably and effectively for the lifetime of the user. Unique designs allow multi-use through practicality, not by way of frills, gimmicks or elaborate mechanisms that are unnecessary or over-engineered.

Keep it simple with Fabtech customized tools.

We designed our tools doing Fab. Our mantra: keep focus on the product, not the use of over-complicated equipment. All of our equipment can be customized to fit your needs, both in function, sizing and finishing options.

Tools we have developed through extensive production:

- Modification Stands • Rivet Stations • Vacuum Pulling Stations
- VAJ Stands • Assembly Stations • Ergonomic Cast Racking
- Venturi Systems • Vacuum Pumps • Fittings
- Portable Blister Stand • Blister Form Vacuum Bushings
- Vise Clamps • Quick Clamp • And Much More.
