

Racing to the Finish Line with the **Swing Phase Lock**

"Thanks to the Swing Phase Lock, my employees and clients at the F1-Boston racing center no longer see me struggling in a wheel chair or with crutches. No one can tell there is anything different about me. I want the focus to be on our business, not my handicap."

-Karen Quast, Partner and General Manager of F1 Boston
F1 Boston is an indoor race track and corporate conference center

It's not just an 8-5 device, unlock the possibilities 24-7

- Restore swing phase
- Reduce energy consumption
- More cosmetic gait
- Easy to fabricate in-house or central fabrication
- No certification required
- Use any ankle or as KO
