

*Trust* Your Instincts

**The Plié® 2.0** is the world's fastest responding microprocessor controlled (MPC) knee. In milliseconds the microprocessor controlled spool valve responds to changes in ground reaction forces, giving people the confidence to trust their instincts and reclaim the freedom to enjoy life on their own terms.

- Move at your own pace in any direction
- Turn in confined spaces and take small short steps
- Feel confident in the most responsive stumble and fall protection
- Enjoy activities near the water

Learn more about the Plié 2.0 MPC Knee and how it can help you document variable cadence at [freedom-innovations.com/knees](http://freedom-innovations.com/knees) or contact Freedom Innovations at **888-818-6777**
