

the Runway

Experience the industry's most innovative, adjustable heel-height foot.

- The ideal adjustable heel foot for active amputees
- Patent pending, push-button adjustable heel—no tools necessary
- Incredibly smooth gait at all heel heights
- No hydraulic leaks or bumpers to change
- Stiffness appropriate to patient weight
- Unique ankle mechanism ensures optimal performance regardless of heel height
- L-5981 and L-5990 reimbursements
