"Quality patient care is NAAOP's bottom line and has been for 33 years. We encourage you to join our efforts and help us to continue to be a strong, unifying advocate for the O&P profession. Together, we will make the future brighter for O&P patients and generations to come."

George Breece
Executive Director

"NAAOP improves access and quality for patients, and fair conditions for practitioners. We know that improvements begin with policymaking, and NAAOP is well-positioned for advocacy and representation of our members' point of view. Please join us and help make a difference for O&P now and in the future."

Rebecca Hast
Immediate Past
President

"NAAOP achieves results that have protected the O&P profession. Whether helping clinicians and patients successfully challenge a state trying to impose draconian limitations on prosthetic coverage or training and educating the next generation of patient advocates for our profession, NAAOP has transformed our professional world for the better."

Dave McGill
Former President

"Patient need must drive all policy. NAAOP lives by these words, serving as a champion for the O&P patient in all governmental affairs. NAAOP stands up for healthcare policies, legislative and regulatory changes, and professional practices that promote what the O&P patient needs to thrive in our communities."

Nicole Ver Kuilen
Board Member

"The NAAOP Fellowship Program was created to identify and develop the best kinds of O&P advocates, those who rely on these services to remain functional and independent. NAAOP's goal is to develop such advocates over the coming years who will become the next generation of O&P policymakers and advocacy champions."

Peter Thomas
General Counsel
