"NAAOP has served as a true partner and ally in legislative and regulatory policy for both the patient and O&P healthcare professional. The need for NAAOP is greater now than ever before."

Glenn Crumpton
President

"NAAOP is a leader in the advancement of advocacy initiatives aimed at improving patient care and enhancing clinical effectiveness in the O&P field. NAAOP led the charge in creating an Alliance Subcommittee on sexual harassment and a resource guide for practitioners, employees, and patients."

Maggie Baumer
President Elect

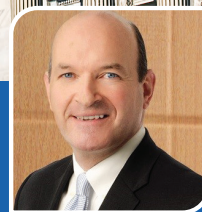

"NAAOP has our back by protecting our patients' access to care and keeping O&P professionals in business. NAAOP has a pulse on Washington and effectively works with our government to help shape policy focused on our patients' needs. Every O&P professional should support NAAOP's advocacy efforts."

Ann Leimkuehler Moss
Vice President

"A great example of NAAOP's continued leadership role in regulatory advocacy is the NAAOP Fellowship Program that was created two years ago. This program identifies some of the best and brightest O&P consumers and fosters their development into the next generation of advocates."

Todd Eagen
Secretary/Treasurer

"NAAOP helps the O&P community distinguish the important messages from the noise coming out of Washington. We work with leaders in the O&P profession to present a positive and proactive message—one that benefits O&P patients and the providers who serve them."

Peter Thomas
General Counsel
