

There are now over 300 O&P companies using OPIE Software, including more than 64 that have switched in the past twelve months.

Not using OPIE yet? You are missing out on these features and many more designed specifically for O&P:

Clinical workflow management with dozens of O&P-specific clinical forms

Work-in-Progress Dashboard that allows you to manage your business from anywhere

Billing & Collections with an efficient tasks system and no double entry

Customizable Reports that improve compliance with regulations

Favorites and templates that speed up most common tasks

Code Intelligence to enforce standard coding and prevent costly mistakes

Purchasing & Inventory with a growing list of integrated suppliers

Fabrication tracking to help ensure all jobs are completed on time

Paperless offices are being set up every month

Rapid evolution with the largest software development staff in the O&P industry

Knowledgeable tech support staff who work only with O&P companies

Lower pricing than systems that offer far less to an O&P practice
