

## OPIE Practice Management Suite

**A comprehensive, intuitive software suite that manages  
all of the data, processes and people in your practice**

The OPIE Suite is the culmination of many years of research, development and testing aimed at creating a digital O&P office. It seamlessly connects the practitioners, technicians, administrative staff and billing staff, managing workflow processes and creating complete electronic medical records for your patients. This is not your father's billing software. It is a revolutionary product that will change the way you do business, maximizing efficiency to improve your bottom line, increasing compliance, and leaving you more time and energy to focus on taking care of your patients.

## OPIE Lite Purchasing Management

**An easy, inexpensive software tool for streamlining your purchasing,  
and a great first step toward creating a digital O&P office**

OPIE Lite takes the headaches out of selecting, ordering and tracking the components and supplies that you need. Purchasing is streamlined and centralized, even across multiple locations, which saves you and your staff time and guarantees that you have easy access to the information you need, whether it is the status of an individual component for one of your patients or the larger spending patterns that affect your company's bottom line. This web-based tool requires no installation and is very inexpensive.

## OPIE Integrated Suppliers

OHIO WILLOW WOOD

With integrated suppliers the OPIE tools are extended to include your relationships with business partners. Browse complete digital product catalogs, select and configure components, initiate and track central fabrication jobs, and place electronic orders without ever leaving the software.
