Cad Cam & Modification Services

We can manufacture your scoliosis brace utilizing the latest Cad / Cam technology which allows us to modify and carve a mold to your patient's measurement or scanned image.* We can also use more traditional methods in fabricating your scoliosis brace from custom-to-cast or measurements. (X-rays are required for a finished scoliosis brace).

Expertise

OPTEC's expert technical & professional staff possess countless years of experience and expertise in custom spinal fabrication. "Orthotics on time" is not only our slogan, we truly do provide your spinal orthosis when you need it, how you need it, ready to fit.

Typical Indications:

- Idiopathic Scoliosis

- Fabrication Hours – 24 / 7 / 365 including weekends and holidays
- Overnight Delivery – Ship UPS-NDA and save money with flat shipping rate
- Same Day Delivery – Same day delivery available via Delta Dash
- UPS e-mail notification or on line tracking to monitor package

All our custom services are guaranteed and have a full warranty, offering you and your patients maximum security and confidence.

* Scanned Images are accurate to within one millimeter
