

THE MASTERS OF CUSTOM SPINAL

AVAILABLE 365/24/7 • SAME DAY FABRICATION
CUSTOM TO MEASUREMENT • CUSTOM TO CAST

At OPTEC USA each individual orthosis is fabricated to the patient's unique measurements and your specifications, ensuring the very best fit, support, and comfort. We possess one of the largest spinal databases and physical libraries in the industry. We can manufacture your spinal orthosis utilizing the latest technology which allows us to carve a mold nearly identical to your patient's measurement or scanned image.

PDAC APPROVED

The "Stealth™ One" step-down design provides the precise support during the course of your patients' rehabilitation, while providing maximum support, comfort & increased patient compliance. The patented and easy to pull mechanical locking technology is ideal for patients who require user friendly features to adjust compression and control motion while standing, sitting, and ambulating, etc.
