SUPERIOR SUPPORT THAT'S OFF THE RADAR!

OPTEC'S NEW Stealth™ LSO & TLSO is a truly revolutionary spinal orthosis. Our patented locking system makes donning and doffing easy and simple for patients of all ages. Front and back polymer panels in addition to flexible stays throughout create a superior orthosis that provides unparalleled support and immobilization. Stealth's polymer panels and attachments can be adapted or removed to support your patients at all stages of the rehabilitation phase. The Stealth's sleek and innovative design make this brace virtually unnoticeable under normal clothes. These features, along with our breathable knitted cotton fabric give you a result that speaks for itself. *perfect patient compliance.*
