LSO w/ DLK

LSO w/ PPK

When it comes to support and comfort, the **Stealth is King!!!** Easy to put on, Easy to take off. Stealth is our most popular anterior opening soft brace and a true revolutionary 3-in-1 brace. Our unique polymer closure straps allow for precise compression and increased spinal support. The Stealth comes with various plastic panels that can be customized for all stages of your patients therapy. The front and back panels automatically contour to your patients shape, size and lordotic curve.
