

INTRODUCING HIP MANAGEMENT SYSTEMS

# TLC™

OPTEC introduces the new and advanced TLC™ & H<sub>2</sub>O™ Hip Management Systems. The TLC™ Hip Management System is our most economical and by far the best value in its class. The TLC™ is a complete interchangeable modular system that can be ordered in stock sizes or custom fabricated. The TLC™ is available in four sizes, unilateral or universal design.

MANAGEMENT SYSTEM

# H<sub>2</sub>O™

The H<sub>2</sub>O™ is our most adjustable stock hip Management System featuring an adjustable thigh cuff which can be customized to your patients specific circumferences. The H<sub>2</sub>O™ is offered in an easy to stock universal design. Both have infinite adjustability for enhanced patient comfort and are complemented with our versatile THC™ hip abduction joint for a full range of motion control.
