

# THANK YOU

Five years ago, OPTEC Inc. opened its doors for the very first time. The aim was to provide a service to all O&P facilities which would exceed their expectations. For the past five years, we've done just that. We've been open every day of the year, working harder and providing longer hours. The OPTEC team continues to provide the best value by combining exceptional products, friendly service with honesty and professionalism. With this philosophy in mind, it didn't take long before we clearly became your first choice. Again we thank you for your past support and look forward to growing together.

5<sup>th</sup> ANNIVERSARY
