## Universal

OPTEC presents the redesigned TLC Hip Management System. The TLC Hip Management System is a complete interchangeable modular system with unlimited adjustability for enhanced patient comfort. The redesigned TLC Hip Management System features:

### THC<sup>2</sup> UNIVERSAL ABDUCTION JOINT

- Infinite abduction-adduction adjustments.
- Unique release lock system that provides unlimited flexion-extension ROM control.

### UNIVERSAL THIGH CUFF

- Anatomically designed for superior support and fit.

### UNIVERSAL MODULAR PELVIC BAND

- Universal, can be custom fit to both right and left sides.
- Attractive athletic style padding.
- Four sizes: small, medium, large and extra-large.
- Circumferential and vertical adjustability for various body and gender types.
