

A COVER SHOULDN'T TAKE YOU MORE THAN ...
8 MINUTES

**- TRY ENDOFOAM ULTRA ON YOUR NEXT BK -
SEE WHAT YOU'VE BEEN MISSING !!**

EndoFoam Ultra — is the first pourable, two part mixture which provides uniform cell structure with a density matching human tissue.

EndoFoam Ultra — is available in gallon kits which can finish approximately 35 prostheses. Compare the cost of EndoFoam to any pre-shaped foam block — plus the time to shape it!

EndoFoam Ultra — comes in a Caucasian color tone which specifically matches that of today's standard foot color.

EndoFoam Ultra — **Finishing Molds** are the first accurate molds. Available in seven sizes (left and right) and can be purchased separately or as a set. The molds are sized to cover 95% of all BK amputees.
