SYNERGY SOCKETS—CUSTOM TEMPLATES CREATED TO YOUR UNIQUE DESIGNS

Narrow IC

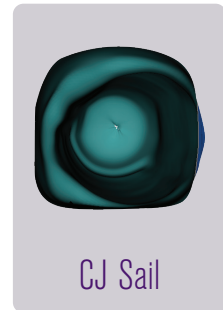

Round IC

Muscle Contour

Quad

CJ Sail

The Synergy CAD socket system features proven CAD socket designs that can be modified to meet most patients' needs. Spawning of these distinct shapes morphs your unique designs and templates into highly customized prosthetic sockets—bridging the gap between CAD and hand modification.

- Synergy CTM fabricated from measurements
- Multiple brim styles to choose from
 - Available in PETG/Vivak, Northplex, ThermoLyn or equivalent
 - Same day turnaround for orders before noon (EST)
 - After noon (EST/MT): 1-day turnaround
