

ClearView™

New advances in thermoplastic technology offer a clear view of your patient. Immediate feedback on fit and function is revealed with this exclusive new material from Orthomerica.

ClearView thermoplastic provides:

- Instant visualization of areas of gapping or excessive pressure
- Excellent memory retention properties without stress fatigue
- Easy to modify, heat moldable without thinning
- Clear gel pads stay in place for adjustments over the malleoli

Visit www.orthomerica.com/clearview for a video demonstration or call the Custom Fabrication Department at 877-737-8444 to discover what products are currently available in ClearView!
