

# INTRODUCING THE NEW EDEMA GAUNTLET

Perfect for patients with fluctuating edema.

## Easy Adjustment!

Side channels allow for both the anterior and posterior laces to be adjusted from the front.

Circle # 69 on Readers' Service Card

Orthomerica's Custom Edema Gauntlets—a valuable addition to our latest Spectrum™ AFO Product Line—are uniquely designed with posterior opening that allows for fluctuating edema. Easy for the patient to tie both the anterior and posterior laces from the front.

These high-quality, custom gauntlets are lightweight, hypo-allergenic and offer optimal fit without compromising patient comfort and function. Available in leather or synthetic material and your choice of plastic inner shell. Anterior closure can be ordered with laces or Velcro closure.
