

# HEAT ADJUSTABLE SPECTRUM™ AFO SYSTEM

## **COST SAVINGS. PATIENT CONVENIENCE.**

Orthomerica gauntlets are now able to be worn throughout the patients' volume changes via unlimited heat adjustments to the plastic material sandwiched between the leather or synthetic material. A unique plastic allows for a dynamic orthosis, saving both time and money for all concerned. Our unique and innovative designs have been tested and refined in high volume orthotic centers. The resulting high-quality custom AFOs, synthetic and leather gauntlets offer optimal fit and are less expensive in today's ultra cost-conscious environment—without compromising comfort or function. Orthomerica's experienced custom fabrication team of certified orthotists, technicians and customer service representatives deliver prompt and exceptional service at highly competitive prices.
