

BALANCE™ FOOT S

Experience the comfort

Combining progressive design elements like a soft heel bumper, a unique C-shape, a wide foot blade with a split toe and optional torsion and Unity[®] modules, Balance Foot S is a lightweight, waterproof foot that provides the stability and comfort low active users desire, while elevating their experience to the next level.

Optional Torsion Unit

Helps restore lost rotational capabilities, reduce shear forces and absorb vertical shock.

Combine Balance Foot S with the new Iceross Seal-In[®] X Locking Liner and Icelock[®] 562 Hybrid to offer low active users who prefer locking suspension the added benefits of vacuum and/or Unity elevated vacuum.
