

MIAMI LUMBAR.™

A NEW LSO FROM THE MAKERS OF THE MIAMI J® CERVICAL COLLAR.

Because backs aren't flat.

The human anatomy is curved. Which is why both the Miami Lumbar belt itself and its various support panels are sculpted to hug the contours of the back, improving comfort, stabilization and compliance.

It's cool to be cool.

Breathable Aerospace fabric and ventilated support panels combine to keep Miami Lumbar cool and comfortable to wear for extended periods of time.

Step right up. Or, down.

The trimmable belt combines with heat-moldable anterior and posterior panels to create a customizable, modular system. Step up, or down, the support level to satisfy the immobilization needs of any patient.

Pressure, only where you want it.

Miami Lumbar relieves pressure over the spinous processes while applying an even pressure to the paraspinal musculature to ensure comfortable and effective healing.

PDAC APPROVED: Lo626, Lo627, Lo630, Lo631, Lo633, Lo637
