

RHEO KNEE[®] XC

From early rehab to full recovery,
go anywhere

From rehab, to the home and office, to the gym and the trail, RHEO KNEE XC confidently goes anywhere, whatever the weather. In fact, in a controlled clinical trial, RHEO KNEE XC enabled users to walk further, faster and with less fatigue.*

RHEO KNEE XC supports advanced capabilities like cycling, leg-over-leg stair ascent and running.

For the most dynamic user experience, we recommend coupling RHEO KNEE XC with Pro-Flex[®] feet.
