

SARAH'S GOT SOLE.

The NEW Flex-Run with Nike Sole. Inspired by Sarah Reinertsen.

Over an athletic career spanning more than two decades, Sarah Reinertsen has set world records in nearly every distance from 100m to the Ironman®. Which is why we sought her help to take the Flex-Run™ to the next level. The result is the best performing Flex-Run to date, featuring a longer toe lever to increase stability and normalize stride length, a more aggressive C-shape to improve forward energy return for more efficient gait progression, and the first ever removable running sole by Nike. **Check it out at www.ossur.com/flex-run and be inspired.**
