

THE NEW ICEROSS® SEAL-IN® X5 A SECURE FIT MADE SIMPLE.

Transibial Transfemoral

The best design in liners just got better. The new advanced Seal-In X5 Liner by Ossur integrates five seals and more flexible silicone to provide an airtight connection. No rotation. No pistoning. No sleeve. It's about time security got this simple.

One liner for the many ways you move.

The New Iceross Seal-In X5 from Ossur.

Now Available for Transfemoral Amputees.

In addition to his Mauch® Knee by Ossur, Randall relies on his Iceross TF Seal-In X5 to enjoy an active lifestyle of hiking and biking.

—Randall Clark, 28 yrs. old

A former professional cheerleader, current business owner, and mother of two, Pennie can't be slowed down by a liner that doesn't fit her lifestyle, so she chooses the Iceross TT Seal-In X5.

—Pennie Curet, 40 yrs. old
