

Iceross® Stabilo™

NO SHORT CUTS

Each amputee is different, unique. Without compromise, the new Iceross® Stabilo liner answers the individual needs of moderate activity amputees who desire a stable and intimate fit. How? Through unique silicone and stabilizing technologies, meticulously developed by Ossur, movement within the hard socket is minimized and soft tissue stabilized.

For innovations certain to shape your tomorrow, trust the company committed to transforming lives one amputee at a time.
