

ELATION™

## IT'S ALL ABOUT OPTIONS

Daily life involves a variety of choices: where to go, what to do, and what to wear. With the Elation™ Flex-Foot® from Ossur, changing shoes to suit the occasion need not be a complicated affair. Heel height can be changed quickly and easily at the touch of a button from 0 - 2" (5cm) and anywhere in-between. And since Elation is a Flex-Foot, it also provides the superior energy return that comes from our advanced composite technology.

With Elation, you can have freedom of choice. And that's what it's all about. Call 800 233 6263 or visit us at [www.ossur.com](http://www.ossur.com) for more information.
