

INDEPENDENCE HAS ITS REWARDS

Independence makes all the difference. It gives seniors the freedom to pursue a lifestyle of their own choosing—and to make a difference in the lives of others. We can help. Technologically advanced prosthetic systems from Ossur offer the maximum opportunity for mature amputees to function independently.

Iceross® Comfort and Dermo® liners for a choice of softness and durability plus Dermo's Active Skin Care for added comfort and health. Total Knee® prosthetics with Geometric Locking for stability and natural movement. Flex-Foot® with Carbon-X Active Heel® to absorb shock and return energy, and in Talux® the Tarsal Core simulates natural ankle function for stability on uneven ground.

We put great care into our prosthetic systems so independent seniors can get the most out of their lives. And for us, that's the best reward. Call 800-233-6263 or visit us at www.ossur.com for more information.

Habitat for Humanity helps to build homes for people who otherwise would not have one.

Life Without Limitations
