SPREADS QUICKLY**

● ● OSSUR ORTHOTICS

For those fitting orthotics, the news is very good, indeed. OSSUR is focusing its extensive expertise in materials engineering and technology on the development of comfortable, effective orthotics. Predictably, the standard of quality has just gone up. For example, the OSSUR AFO Dynamic, an ankle foot orthosis, incorporates advanced Flex-Foot® technology and pre-impregnated carbon fiber to provide a strong, yet lightweight solution for people with drop foot. It offers not only superb support, but also superior energy return and an efficient, confident walk.

OSSUR ORTHOTICS offers a variety of advanced products to serve your needs - look for more advancements in the future. With OSSUR in the neighborhood, the news can only get better. Call 800 233 6263 or visit us at www.ossur.com for more information.
